

### 2010 confirmed Sponsors

### 2009 Sponsors

November 2009

Good day,

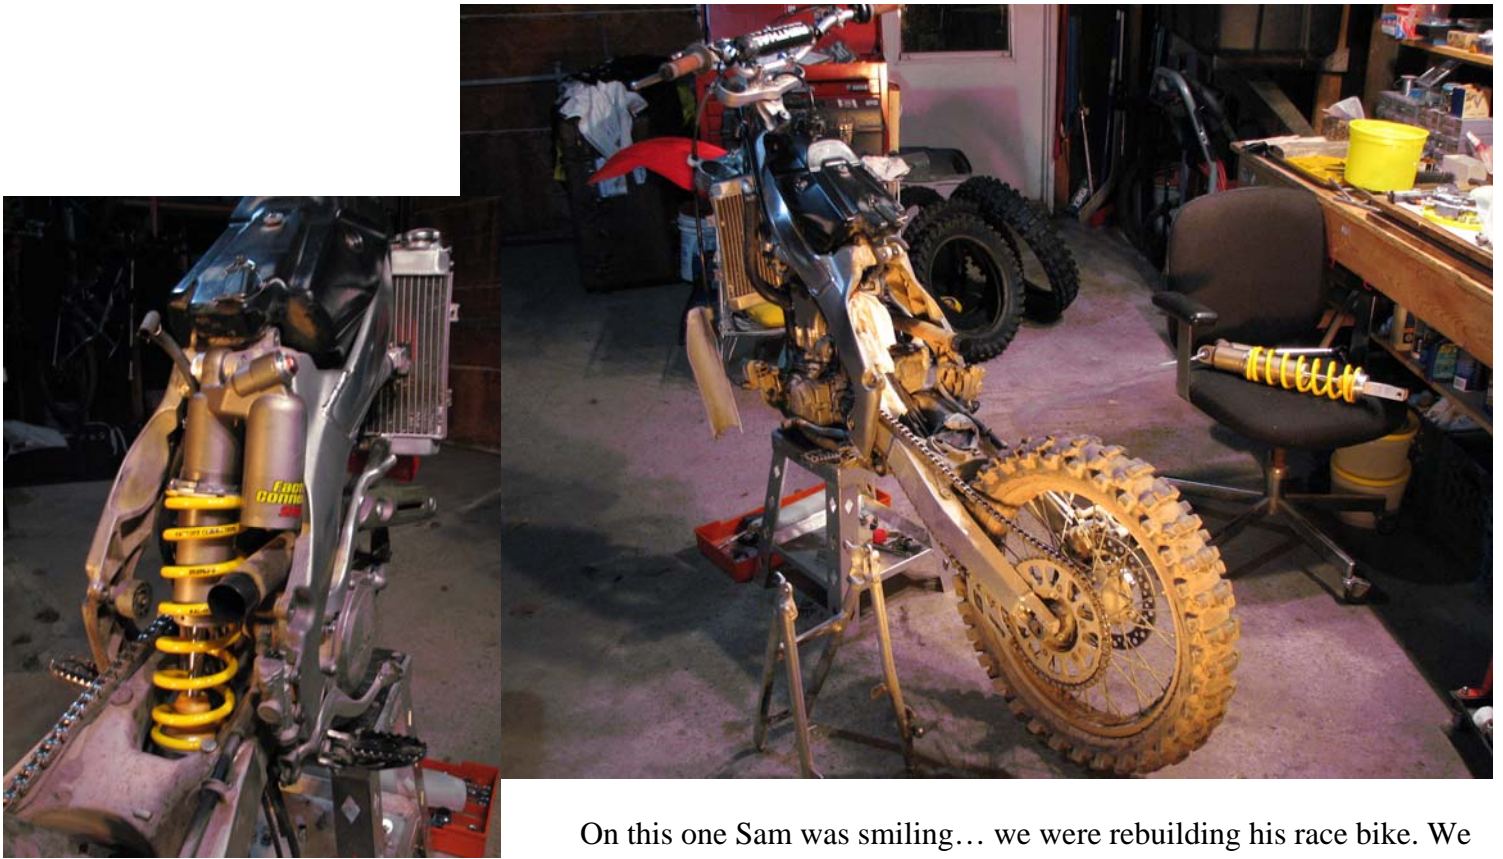

We have some good news to you all. Samuel started riding his new CRF250R motorcycle. We received the newly adjusted suspension from Factory Connection Canada for him and right away he felt at home on the bigger bike.

Serge spent 2 weeks working on these bikes to make them like new and ready to race. On the next few pages we have some pictures of the actions.

This was the first few steps refreshing the look on the practice bike; overall verification, upgrades and the Race bike awaiting Factory Connection Canada suspension.

On this one Sam was smiling... we were rebuilding his race bike. We were getting ready to install his suspensions and his new plastic for a nicer look.

This is the final product, at least for now, of our Honda CRF 250 R 2004!  
We hope to have all sponsors on board and we will be very proud to improve our motorcycles with your products.

Samuel was testing his new ride. He enjoyed a nice afternoon at the track.

Samuel Brazeau, a very happy 13 yrs old kid !

**See you at the race!**
